### ABOUT ME

Junior Frontend Developer with commercial experience in building responsive web applications using React, TypeScript, Vue/Nuxt and modern frontend tools. Experienced in implementing UI changes, reusable components, CMS-based websites and e-commerce interfaces integrated with backend data. Comfortable working with Figma designs, REST APIs, Git workflows and existing production codebases.

### WORK EXPERIENCE

**Dharsa / Seraaq** 09.2025 - PRESENT  
Junior Frontend Developer

- Supported commercial frontend development for client projects using React, TypeScript, Vue/Nuxt, JavaScript, HTML and SCSS.
- Built and maintained responsive UI components based on Figma designs and existing production codebases.
- Developed frontend features for e-commerce, CMS-based and multilingual websites.
- Integrated frontend views with backend data and API-driven content.
- Supported migration of selected PHP-based views to React and TypeScript.
- Worked with Git-based workflows, bug fixing, content updates and UI improvements.

**Rewizor Sp. z o.o.** 3 MONTH INTERNSHIP  
Frontend Developer Intern

- Built and updated website sections using HTML, CSS, JavaScript and frontend technologies.
- Implemented new functionalities and improved existing website layouts.
- Content updates and responsive design improvements. Gained practical experience in working with real projects

### EDUCATION

**Computer Science Engineering** 10.2021 - 03.2025  
WIT Academy in Warsaw

### COMMERCIAL PROJECTS

**BimmerTech - Frontend Updates / Black Friday Campaign**

- Implemented frontend updates in an existing Vue/Nuxt production codebase.
- Updated campaign-related sections, layouts and visual elements.
- Fixed minor UI issues and adjusted responsive behavior for selected components.
